

# SPACE ADVENTURE MAD LIBS

Fill in the blanks to have a silly adventure in outer space!

Welcome to the year 30 \_\_\_\_\_. It was my first space expedition so I was starting to feel really \_\_\_\_\_. It was just me and my \_\_\_\_\_ best friend \_\_\_\_\_ into space. We had a big task ahead of us. Our task was to explore Neptune to look for extraterrestrial life.

We jumped into my space \_\_\_\_\_, turned on the antigravity \_\_\_\_\_, and traveled at \_\_\_\_\_ miles per hour in a rush to get there. As soon as we stepped onto the planet, we came face-to-face with an alien. It was not at all what we expected!

It was covered in \_\_\_\_\_ fur, the size of a(n) \_\_\_\_\_ and looked like a giant ball of \_\_\_\_\_. I could tell it was feeling \_\_\_\_\_, so I shouted “\_\_\_\_\_” to try to ease the tension. In response, the alien screeched out a loud \_\_\_\_\_ and started charging at us at full speed with his \_\_\_\_\_ legs. It was the well-known galactic battle cry- we had to get out of there!

We \_\_\_\_\_ took out our laser \_\_\_\_\_, and rushed back to the vehicle. We got to the vehicle with just seconds to spare. “Next time, we should bring a(n) \_\_\_\_\_ for it. It’s rude to show up to someone’s house empty handed,” my friend laughed as we \_\_\_\_\_ back into the universe.
