**Library Extension (LE):** Browser extension that compares the availability of titles in your collection to the titles on Penworthy's website. Its purpose is to save time in your selection process by putting duplicate title information at your fingertips.

## Instructions:

1. Download the extension by visiting the URL: <https://www.libraryextension.com/>. We recommend Google Chrome as the most compatible browser for penworthy.com.

Easily discover books and ebooks available at your local library!

As you browse books and e-books, the Library Extension can check your library's online catalog and display the availability of that item on the same page.

## Frequently Asked Questions

1. **How accurate are the matches?**
  - a. The title match is completed using the full MARC record title of the book and comparing it to the library's catalog. There can be slight variations in title format, so matches are not 100% accurate, but are very close. Typical internet search protocol allows for close matches.
2. **What if I buy a title that didn't match and now I have a duplicate?**
  - a. Simply return any uncatalogued book for a full refund.
  - b. Contact your sales representative on more information on how to return duplicate book.
3. **Why is the matching process so slow?**
  - a. The speed of the matching process is dependent on many factors: your internet speed, the search speed of the library catalog being compared, the number of titles on the page.
  - b. Increase the speed of matching by displaying fewer titles on the page or increasing your internet speed.
4. **Can I compare the titles I've selected for purchase to the collections of other libraries in my system?**
  - a. Yes, follow step 2 to select as many libraries as desired. Please note that searching additional library catalogs may slow the matching process.
